

## Web Books Login Page Test Report

**Test Summary** This report documents the test steps executed for verifying the Web Books login page using Playwright.

### Test Environment

- **Testing Framework:** Playwright
- **Browsers Tested:** WebKit, Chromium, Chrome, Firefox, Safari
- **Operating System:** Windows/Linux/macOS (based on test execution environment)

### Test Case: Verify Web Books Login Page

#### Test Steps:

1. Navigate to the Web Books login page: <https://www.rea-webbooks.com.au/login>
2. Verify that the following elements are present:
  - Email input field
  - Password input field
  - Login button
  - Register button
  - "Forgot Your Password?" link
  - Contact information
3. Run Playwright tests across multiple browsers.
4. Capture test execution results.

### Test Execution Results

Browser	Test Status
WebKit	 Passed
Chromium	 Passed
Chrome	 Passed
Firefox	 Passed
Safari	 Passed

**Test Output** All tests successfully executed and verified the presence of expected elements on the login page as shown in the results.
